

Man in the Dark Sedan

Information Society

I'm the man in the dark sedan
And I have come to take your hand
I was sent down here to be sincere
Truthful and steadfast
I came to say that judgement day
Of man has come to pass

I'm the man in the dark sedan
And I have come to take your hand
You can follow me
I guarantee to take you far away
But we must leave

Before the eve of everlasting gray

I'm the man in the dark sedan
I have come to take your hand
You will leave this place and soon replace
The names of those you know
With a brotherhood that has withstood
The leeches and the snow
I'm the man in the dark sedan
I have come to take your hand
