

# This Way Tonight

Information Society

I have seen you out round the way  
I can think about you all day  
I got a feeling that is taking over, mind is reeling  
And I can't define the need but it's in my way

I got time to take what is mine  
You are it, I know we can fit  
There's nothing stopping me so come on baby can't you see  
I got a fever plaguing me and I need a fix

I got something to show you  
I don't wanna know you  
I just wanna feel this way tonight  
I don't wanna play you  
I go all the way too  
I just wanna feel this way tonight

I'm not trying to play any game  
You can call me by any name  
It's not about the rest, it's only about being blessed  
So just pretend that it's a test and don't be ashamed

I got something to show you  
I don't wanna know you  
I just wanna feel this way tonight  
I don't wanna play you  
I go all the way too  
I just wanna feel this way tonight

I just wanna feel this way tonight  
I go all the way  
I just wanna feel

I got something to show you  
I don't wanna know you  
I just wanna feel this way tonight  
I don't wanna play you  
I go all the way too  
I just wanna feel this way tonight

I got something to show you  
I don't wanna know you  
I got something to show you  
I don't wanna know you
