

Would You Like Me If I Played a Guitar?

Information Society

People tell me that
There's no end to your sincerity
Gotta find a way
To prove myself in your vicinity
People always say
You're quite aloof, you barely notice me
Would you look my way
If I put some cracks in your credibility?
I just wonder

Would you like me if I played a guitar?
Would you like me if I had a nice car?
People tell me that I'm going too far
Would you like me if I played a guitar?

People tell me that
My love for you must be an accident
They don't understand
Deep inside, I'm really an innocent
When you came my way
I thought that I had won the lottery
But when I tell myself that you are mine
Well, that's just flattery
I just wonder

Would you like me if I played a guitar?
Would you like me if I had a nice car?
People tell me that I'm going too far
Would you like me if I played a guitar?

Would you like me if I played a guitar?
Would you like me if I had a nice car?
People tell me that I'm going too far
Would you like me if I played a guitar?
