

Looks Like a Cold, Cold Winter

Ingrid Michaelson

Looks like a cold, cold winter
Plenty of ice and snow
But we'll keep the love light in our hearts aglow

Looks like a long, long winter
Baby what do we care
As long as we have this love of ours to share

It's gonna be cold outside
It's gonna be warm inside
So we'll cuddle up by a cozy fire side by side

Looks like a cold, cold winter
Summer is far away
But until then I'll love you more and more each day

Looks like a cold, cold winter
Plenty of ice and snow
But we'll keep the love light in our hearts aglow

Looks like a long, long winter
Baby what do we care
As long as we have this love of ours to share

It's gonna be cold outside (record breaking)
It's gonna be warm inside (temperature taking)
So we'll cuddle up by a cozy fire side by side

Looks like a cold, cold winter
Summer is far away
But until then I'll love you more and more each day

It's gonna be warm inside (love words will beat it)
It's gonna be cold outside (my love will heat it)
So we'll cuddle up by a cozy fire side by side

Looks like a cold, cold winter
Summer is far away
But until then I'll love you more and more each day
Gonna keep you warm until winter goes away
