## Insane Clown Posse

Murderers day in and day out  
Murderers in this town right now  
Would blow your brains out  
For enough money for a fix of crack cocaine  
Its never crossed their murdering minds  
That they're gonna burn in hell  
They never thought The fact they're going to burn one day

The cops have left their posts  
And ran home to their wives  
Today is the last day of all of our lives  
There's bullets in the air  
I can hear glasses breakin  
There's no mistaking  
The fucking earth is quaking  
A man is on fire running down my block  
I put him out his misery and blast him with a rock  
Explosions going off sirens and alarms  
I'm ready for death grippin my hatchetman charm

Say goodbye to the world  
The world as we know it  
Say goodbye to the world  
The world as we know it  
Say goodbye to the world  
The world as we know it  
The world as we know it  
Say goodbye to the world

### Apocalypse

Armageddon came now  
Say goodbye to the world  
The world as we know it  
Let the fire  
Let it rain down

Water mines blow up  
And shoot out the dirt  
A stranger punch me in the mouth but it ain't even hurt  
I'm seeing families run  
No need to be gunned down  
By some psychopathic killer with automatic rounds  
A burning chopper crashing  
To the house next door  
The pilot got shot I fuckin shot him some more  
It's mass mayhem pandemonium and armageddon  
People are killing each other, themselves and raping neden

Swarms of insects are attacking the city  
I see a man fucking a headless corpse when it hit me  
This is Babylon the devil is alive on earth  
I pulled the clip in my Uzi and killed for all it's worth

I shot an old man on his bike  
A clown on his trike  
A fuckin whore named Sally

And a pirate named Mike  
They're all dead now  
I put gun to my head, too late  
A little kid shot me instead
