## Insane Clown Posse

(Shock! Shock! Shock!)  
Check my shit out on me  
Give me a lobotomy  
(Shock! Shock! Shock!)  
Check my shit out on me  
Give me a lobotomy

I ran outside tryna stop a civil  
But they just laughed and almost killed me  
My Face is bloody and my shoes are gone  
Standing in traffic, What went wrong?  
In my hand is an axe, weapon  
Can't relax 'till I know what happened  
How did I get to this location  
Who the fuck am I chasing? Or are they in persuit of me? Either or I choose  
to flee  
Runnin' on sidewalk, Spasmodic  
Shirt's all bloody, No! Can't have it  
Peel it off, I run inside somebody's house, I come to hide  
Some kid playing his Xbox SCREAMED, but I'm still in shock

(Shock! Shock! Shock!)  
Check my shit out on me, Give me a lobotomy  
There's no escaping (Shock!) from my own head (Shock) It's so fucked up (Shock!)  
Check my shit out on me, Give me a lobotomy

I choked a kid with his power cord, but he got away, oh lord  
I ran upstairs behind the mirror  
I'm looking for dope, it's clear  
I've found some klonopin and downed the rest, about 10  
Back outside, fat and bloody  
Running from or looking for somebody  
It don't matter, My brain's shattered  
Swinging my axe like "hey batter"  
The sun beating on my face, I hear the police pick up my pace  
Into a strip mall, CVS  
Home for dope, PBS  
You see me coming and shut the gate, I ain't got time to fucking wait  
I'm in Shock!

(Shock! Shock! Shock!)  
Check my shit out on me, Give me a lobotomy  
There's no escaping (Shock!) from my own head (Shock) It's so fucked up (Shock!)  
Check my shit out on me, Give me a lobotomy

Out the back entrance I cut  
Them klonopins are catching up  
I tried to hop up over a wall  
Backwards, back down I fall  
I wanna pass out, but that can't happen  
Keep running myself, I'm slapping  
I'm getting dizzy, glass in the road  
I stepped in it, it took it's toll  
I hopped the fence onto the grass  
2 backyards, looking through the glass

People watching television  
They be like "Damn, Yes I'm wishing"  
How I got here? Ain't got a clue  
I laid on the lawn for a minute or 2 to catch my breath, just for a spell  
Everything's fine, all is well...
