

# Southwest Voodoo

## Insane Clown Posse

Voodoo, runnin' from my magic

Brain insane, Shooga whooga bah  
Southwest voodoo's in the haugh!  
Wicked voodoo, joker killer  
Magic, dark magic

Met this kid named Louie Lou  
He thought he could fuck with this voodoo  
So I turned his head into a lima bean  
And then flicked it off his shoulders

From Mookan House to Shangra La  
Egyptian Pharaoh, coompata  
Follow me, and join us as we pray  
To the seventeen moons of Coonga Del Ray

Walked in the lunchroom chantin' spells  
With bamboo bitches and voodoo bells  
Got my own food, who wants some?  
I got possum nipples and raccoon tongue

A non-believer once started to laugh  
So I launched a fireball up his punk-ass  
Then everybody heard him squeal  
"This voodoo shit's for real!"  
It just takes...

R: A head from a newt, a wing from a bat  
A tongue from a snake, a tail from a rat  
A neck from a chicken, an eye from a crow  
And a little bitty itty bitty little drip of Faygo

Brain insane, Shooga whooga bah  
Southwest voodoo's in the haugh!  
Wicked voodoo, joker killer  
Magic, dark magic  
(2x)

Crypt on Verner on a windy night  
You see voodoo scribblings in the moonlight  
Painted all on the city street  
It's the ancient craft of gang banging  
Hey! J! What's in the bag?

A shrunken head, and shriveled scrotum sac  
Why? Ya think voodoo's fake?  
Come to the graveyard, I'll make the dead wake

"Raise, raise, shooga-boom ba.  
Sleep no longer, raise, quick  
Raise, raise, shooga-boom ba,  
Leave us alone, you fuckin' punk bitch!"

Well, fuck it, I ain't that good yet  
But one day you can bet I'm a freak  
We'll make the whole world dance with the dead

And just like my homey said  
It only takes...

R:

Voodoo running from my magic (3x)  
I'll make a voodoo doll out of ya and flick your nuts

R:
