

## So Sadly It Goes

### Inspection 12

What have we done to equality?  
We've almost wiped out that word  
Its Johnny-come-lately for mending up  
For all the idea sounds absurd  
I'm sorry, so sorry  
I dont know what I've done  
God help me-Please help me  
Help me see the light  
The taller you are the farther you fall  
Before you make plans in advance  
Set your objectives a smaller scale  
This change just might improve your chance  
Now as present turns to past  
It looks gray and overcast  
No, we're not in darkness yet  
But as the sun begins to set  
We can see it clearer now  
Malevolence and hatred prowl  
With glaring eyes and gritted grins  
We won't let the bigots win
