

Make a Little Love to Me

Isaac Hayes

My cup of desire is overrunning
Anytime you call me, girl, I'm coming
If you make a little love to me

I'll need a dose of your love power
'Cause I can't last another hour
You gotta make a little love to me

I'm all psyched up for what you got to give
So don't play naive
'Cause, girl, you know what it is

I've been getting thirstier every minute
For a sip of your love
Mama you can quench it - Make a little love to me

Instead of givin' me a hard time
You could be havin' yourself a good time
If you make a little love to me

You wound me up
And then you turn me on
You can stop now 'cause the need is much too strong

Soft lights and mellow music
Don't mean a thing
No it don't mean a thing if you're not there, girl
To share in all the joys that makin' love can bring

My cup of desire is overrunning
Anytime you call me, girl, I'm coming
If you make a little love to me

I'll need a dose of your love power
'Cause I can't last another hour
You gotta make a little love to me

I'm all psyched up for what you got to give
So don't play naive
'Cause, girl, you know what it is
