

## Part Of Me

Isak Danielson

I used to love how you despised me  
You made me weaker than I was  
I'm so sick and tired of all these conversations  
I believed in all you told me  
The way I never was enough  
I'm so fucking tired of all these accusations

From what I've learned  
I will be okay because baby you were not my first

I have found my way now  
I have walked away from your life  
I will be a better part of me without you dear  
I just had to wake up  
And see my own reflection  
I will be a better part of me without you dear  
I will be a better part of me without you

I'd always do the things you told me  
You made me tell your every lie  
I'm not letting you take the control of these situations

From what I've learned  
I will be okay because baby you were not my first

I have found my way now  
I have walked away from your life  
I will be a better part of me without you dear  
I just had to wake up  
And see my own reflection  
I will be a better part of me without you dear  
I will be a better part of me without you

From what I've learned  
I will be okay because baby you were not my first  
From what I've learned  
I will be okay because baby you were not my first

I have found my way now  
I have walked away from your life  
I will be a better part of me without you dear  
I just had to wake up  
And see my own reflection  
I will be a better part of me without you dear  
I will be a better part of me without you
