

Lucy Doesn't Love You

Ivy

Nothings ever going to make her happy
She doesn't mind cause she's used to it that way
Time, time, time drags on forever
She's still trying to get it together

Lucy doesn't love you
Not like you want her to
Some dreams don't come true
Lucy doesn't love you
No she doesn't love you

Four in the morning
You're still wide awake
Just can't shake, shake, shake your headache
I won't lie
I feel dead again
Don't want to talk to any of your friends

Lucy doesn't love you
Not like you want her to
Some dreams don't come true
Lucy doesn't love you
No she doesn't love you

I know it's hard for you to take
Everybody makes a few mistakes sometimes
Nothing's ever going to make you happy
You don't mind you're getting used to it that way

Lucy doesn't love you
Not like you want her to
Some dreams don't come true
Lucy doesn't love you
No she doesn't love you

Lucy doesn't love you
Not like you want her to
Some dreams don't come true
Lucy doesn't love you
No she doesn't love you
