

Make It so Hard

Ivy

Tell me, tell me, what should I do
When there's no one you listen to
You talk and talk but cannot explain
What's going on inside your twisted brain

Were you always so set in your ways?
Or is it some kind of brand new phase?
Tell me, tell me, 'cause I don't understand
A single one of your plans

You make it so hard
You make me so crazy
You make it so hard
You never cease to amaze me

Tough decision, what can I do
You've almost shown me that you're human, too
You made a fire and I know it is lit
You had the chance and then you wasted it

You make it so hard
You make me so crazy
You make it so hard
You never cease to amaze me

Tell me, tell me, where can I go
When there's so much you'd never know
I try and try but I'll never find
What's going on in your mind

You make it so hard
You make me so crazy
You make it so hard
You never cease to amaze me

You make it so hard
You make me so crazy
You make it so hard
You never cease to amaze me
