

# Midnight Sun

Ivy

Floating over the airwaves  
What a feeling  
I don't believe it  
Distant voices from deep space  
Are you receiving?  
Or can't you hear it?

You're still the only one  
Who sets me free  
Just like a midnight sun  
Shining on me

Drifting over the freeways  
It seems so easy  
I know you're near me  
Rising up through the staircase  
Your eyes are open  
I know you hear me

You're still the only one  
Who sets me free  
Just like a midnight sun  
Shining on me

Riding out on the airwaves  
What a feeling  
I don't believe it  
Lift me out of this strange place  
Give me something  
You know I need it

You're still the only one  
Who sets me free  
Just like a midnight sun  
Shining on me  
You're still the only one  
Who sets me free  
Just like a midnight sun  
Shining on me
