

Bluebird

J. J. Cale

Bluebird, bluebird where you been
Man it's been a while since I've seen you friend
Looking out my window all I ever see
My reflection, bluebird and me
Bluebird, bluebird sing your song
Waiting on nobody to sing along
Sitting in the window why can't you see
Bluebird, bluebird you're just like me
Bluebird, bluebird don't fly away
I want to meet you another day
Wings that fly now must be in
Bluebird don't leave me talking to the wind
Bluebird don't leave me talking to the wind
Bluebird don't leave me talking to the wind
