

# Carry On

J. J. Cale

If life's little downs they keep coming around  
Carry on, carry on  
With darkness all about, you want to scream and shout  
Carry on, carry on  
Don't cry baby, look at where you've been  
Everybody knows you just need a friend  
Please, please, please, if you're down on your knees  
Carry on, carry on  
Your head is full of doubt, you can't figure it out  
Carry on, carry on

Between the time it takes to make all those mistakes  
Carry on, carry on  
It don't matter what you say or do  
It just seems to work out if you want it to  
Let out all the slack, take it off your back  
Carry on, carry on  
Let me bend your ear, never shed a tear  
Carry on, carry on  
Carry on, carry on
