How can you put me through these changes Why do you do me like you do
It ain't no way
I love-a-dee love nobody but you
Let him go out and get with strangers
Don't you turn my love to hate

Ain't no man can love you like I can, and I do How can you put me through these changes Why do you do me like you do It ain't no way I love-a-dee love nobody but you
