

Never Had Time

Ja Rule

(JaRule) i just never had time

its Lights and the cameras, the trips from New York to Paris
It seems I never can manage to say that I, I never had time
Living my life on the road, and every city is home I should have picked up the phone
And say that I, I never had time
I never had time, time I need to stay, there was one for me

Everybody you was with said you was shit, girl,
right the it Girl, the one I'm really trying to get with girl
Not once kinda like a refill
I feel, can it get any better, you niggas getting cheese better make mine fetta
Spread it on brushetta been around the world seen these bitches wont shut up
How did we meet..... I've been wonderful experience real love
I really wanna explore love, I just never had time

I never had time, time I need to stay, there was one for me
Living my life on the road, and every city I should have picked up the Phone
And say that I, I never had time
let it rain let it rain rain down on me
I've been really trying to be someone I never been
Trying to visualize something I never seen
And if I can't see it, how could it every be
I'm just trying to let it be more than a memory i pray
Remember me, miss me when I'm gone 18 months aint that long
I need to get away from it all
The niggas, the bitches, the bizness

Like DRAKE said, the hardest part is minding your own
talking all bilingual Maricon
I'm on the beach with my feet up, monaco
the sad part about it tho i wanted you to be here i just never took the time to
say so and now
I kinda think you was waiting on my call
just never had time

Lights and the cameras, the trips from New York to Paris
It seems I never I never can manage to say that I, I never had time
Living my life on the road, and every city I should have picked up the phone
And say that I, I never had time
I never had time, time I need to stay, there was one for me

If I'll never get the chance to say, them 3 words so famous
Depending how you go through
Me myself, I'm more I'm here, but never there for the moment
Especially know how we still do it
sex is cuz the the rule done it sex is always whos coming
So selfish, but so wanted
If there's anything you learn from this is
Don't let your feelings lie dorement I wish I would have told you
Never had time

Lights and the cameras, the trips from New York to Paris

It seems I never I never can manage to say that I, I never had time
Living my life on the road, and every city I should have picked up the phone
And say that I, I never had time
I never had time, time I need to stay, there was one for 3.
