## **French Kiss The Elderly**

I'm not so pretty now They're filthy next to me I'm staring at myself in family therapy I'm dying day by day But no one cries for me They'd rather slit their wrist Than french kiss the elderly Don't shoot Don't shoot Don't shoot Don't shoot On the day we broke you made the On the day that we die On the day we broke You made the whole world Stop it you're hurting me Stop it you're hurting me Stop it you're hurting me Stop it I'm sitting quietly in gothic sympathy I try to cut myself But they won't watch me bleed They do not understand They are afraid of me They'd rather shoot themselves Than french kiss the elderly Don't shoot Don't shoot Don't shoot Don't shoot On the day we broke you made the On the day that we die On the day we broke You made the whole world Stop it you're hurting me Stop it you're hurting me Stop it you're hurting me Stop it I'm sitting pretty now with filthy next to me I have two tumored hands and a diseased body

Come on let's kill ourselves Than french kiss the elderly
