

Spit And Rape

Jack Off Jill

I'm in a circle, looking up above
I'm turning purple as she smothers me
I watch her thinking, face is changing shape
How is she happy when she thinks of spit and rape

I know who you are
You left a big black scar
I say there's no escape
You'll know when

Fucker you're going down
Girl you're going down
Fucker you're going down
You and spit and rape

I'll get you
I'll catch you
I'll get you
Just wait

I know you had your fun
Did deeds and now you're done
I say there's no escape
You'll know when

Fucker you're going down
Girl you're going down
Fucker you're going down
You and spit and rape

I'll get you
I'll catch you
I'll get you
Just wait

I know who you are
You left a big black scar
I say there's no escape
You'll know when

God is going down
God is going down
God is going down
He and spit and rape
God is going down
God is going down
Why don't you strike me down?
You and spit and rape
