

# You Better Get Going Now

Jackie Lomax

Can't you see that I'm down?  
I just don't want you hanging 'round  
I think you better get  
You better get going now  
You better get going now  
You better get going now  
You better get going now

I just heard of your love  
It wasn't me you was thinking of  
I think you better get  
You better get going now  
You better get going now  
You better get going now  
You better get going now

You think I can't do without you  
But you'll find out you're wrong  
I've found many ways to doubt you  
You can't persist, you're gone

You can walk out the door  
I don't need you here anymore  
I think you better get  
You better get going now  
You better get going now -- I think you better leave  
You better get going now -- as soon as you please  
You better get going now -- you can walk out the door, baby  
You better get going now -- I don't need you here anymore  
You better get going now -- you can go, go, go, go  
You better get going now -- go, go, go, go  
You better get going now
