

All Night Rodeo

Jackyl

Stack it up got the girls on the heels
Back it up give the boys some thrills
Giddy up trying to get up and go
All night rodeo nobody be standing still
Everybody be dressed to kill
Light that fuse and blow it up
I drink my liquor from a dixie cup

Everybody come to party
Everybody come to party
Everybody come to party
A time bomb ticks til it's time to blow
Everybody come to party
Everybody come to party
Everybody come to party
A time bomb ticks til it's time to blow
A time bomb ticks til it's time to blow

Batter up time to take a swing
Line it up try to get in the ring
Step it up ready to play
Sweeping you away
A barefoot ladies gone kick of her shoes
[?] me over and I can't refuse
Take me down the road while the full moon shining
Call for help on the moonlight

Everybody come to party
Everybody come to party
Everybody come to party
A time bomb ticks til it's time to blow
Everybody come to party
Everybody come to party
Everybody come to party
A time bomb ticks til it's time to blow
A time bomb ticks til it's time to blow

Play on I'm hanging all night rodeo
Play on I'm singing on Jimmy in in stereo
Play on I'm swinging all night rodeo
Start that shining on the center stage while the ladies in leather dancing i
n a cage
Rack it in like a twelve gauge everybody hooray
Everybody come to party get all up in it now

A barefoot ladies gone kick of her shoes
[?] me over and I can't refuse
Take me down the road while the full moon shining
Call for help on the moonlight
Everybody come to party
Everybody come to party
Everybody come to party
A time bomb ticks til it's time to blow
Everybody come to party
Everybody come to party
Everybody come to party
A time bomb ticks til it's time to blow

Everybody come to party
Everybody come to party
Everybody come to party
A time bomb ticks til it's time to blow
Everybody come to party
Everybody come to party
Everybody come to party
A time bomb ticks til it's time to blow
