There is no mercy in store
This barrel taste like some cold steel
I think I'll chew on some more of this cold steel
This time I'm ready to blow I need directly
Edge of it look out below you can't deflect me
Hope it don't blind so low you will detect me
This time I'm ready to blow I came to rent me

I think I'll pour on some gas on it distress
This time I'm ready to blow indirectly

Or freed my nose from this glass
This razer taste like some cold steel
I think I'll chew on the straight edge of this cold steel

This time I'm ready to blow indirectly
Hands up and look out below you can't deflect me
This time I'm ready to blow I came to rent me
Hope it don't blind so low you will detect me
This time I'm ready to blow I came to rent me
