

# Be Mine

Jacob Latimore

It's been bout 4 months  
I had to move on  
Where did our love go  
I guess we'll never know  
Ain't talked in so long  
Don't pick up your phone  
Baby I can't leave you alone

We can give it one more shot  
I been missing you a lot  
I just gotta get you back  
I'm calling to tell you that

Baby you been on my mind  
I was tryna give your heart sometime  
But I just can't deny  
That you been on my mind  
You been on my mind  
And I was tryna give yo heart sometime  
I just can't deny  
That you been on my mind  
So you should just be mine

Can we just sit down  
Have to talk it out  
We both need this now  
Gotta work it out  
You're all I think about  
And I hate you're not around  
And I just want you around

We can give it one more shot  
I been missing you a lot  
I just gotta get you back  
I'm calling to tell you that

Baby you been on my mind  
I was tryna give your heart sometime  
But I just can't deny  
That you been on my mind  
You been on my mind  
And I was tryna give yo heart sometime  
I just can't deny  
That you been on my mind  
So you should just be mine
