

Old Thang Back

Jacob Latimore

She just want that old thang back, yeah
'Cause he don't make her smile for no reason like me
She miss them butterflies in her belly
And she can't remember why we not together
She just want that old thang back, yeah
And she human, so she gon' make some mistakes
To make it up, she'd do whatever it's gon' take
'Cause she love me like a fat kid loves some cake
She just want that old thang back, yeah

She said she don't want it if it ain't me
They don't do it for me like I used to, no
And without me, she be feelin' like she just can't breathe
Baby, can we link up tonight? Do something tonight
Hit the city, have a little bit of fun tonight
And that's what she sayin' to me
But, girl, I gotta check if my schedule is free

'Cause now I'm only rockin' big trips, signin' big deals
When that money get to callin', baby, I gotta peel
She said, "Baby, please don't blow me off, you gotta listen"
See, the last time that we talked, I got in my feelings
And I blew it, I was stupid, I was young then, I was foolish
Please forgive me, please be with me
'Cause without you, I feel empty

She just want that old thang back, yeah
'Cause he don't make her smile for no reason like me
She miss them butterflies in her belly
And she can't remember why we not together
She just want that old thang back, yeah
And she human, so she gon' make some mistakes
To make it up, she'd do whatever it's gon' take
'Cause she love me like a fat kid loves some cake

I ain't even gonna lie, girl, I've been thinkin' 'bout you
Not just 'bout your booty, but your beauty too
Not just about the way you move
But you always had your brains to complement you
Link up tonight, do something tonight
Hit the city, have a little bit of fun tonight
That's what I'm sayin' to her
Baby girl, for whatever it's worth

'Cause now I'm only rockin' big trips, signin' big deals
When that money get to callin', baby, I gotta peel
She said, "Baby, please don't blow me off, you gotta listen"
See, the last time that we talked, you got in your feelings
Then we blew it, we were stupid, we were young then, we were foolish
So maybe, baby, I can give you another chance

She just want that old thang back, yeah
'Cause he don't make her smile for no reason like me
She miss them butterflies in her belly
And she can't remember why we not together
She just want that old thang back, yeah
And she human, so she gon' make some mistakes

To make it up, she'd do whatever it's gon' take
'Cause she love me like a fat kid loves some cake
She just want that old thang back, yeah
