

# Fire of Our Spirit

Jag Panzer

I am you and you are me we are all the same  
Energy flowing through our veins no one is to blame

Forging paths we do not know amidst the fire and the flame  
Releasing inhibitions soaring to an endless sun

Feel the fire  
Of our spirit  
Feel the fire  
Of our spirit  
Feel the fire  
Of our spirit

Casting aside all the thoughts that divide  
Joining as one form a bond  
Lasting for time after time without end  
Fire of our spirits carry on...

Break the ties that hold us down taking to the sky  
Release our feet from off the ground open our wings to fly
