

Back to the Start

Jake Miller

Let's take it back to the start
When we were just kids in love
Do you remember back in the start
Before we started growin' up

I wish we could go back, back, back to the start
When the whole world was us
I wish we could go back, back, back to the start
When the whole world was us
Let's take it back to the start
When we were just kids in love

Young and so blind, we were runnin' on cloud nine
So in love, we were so high
I wish that we could relive those nights

I wish we could take it back, back, back to the start
Hit the reset, bring it back to the sparks
Back to the days we were drive to the park
Hookin' up all night in the back of my car
Yeah with my hands on you hips
Only seventeen never felt like this
Had you in my arms thinkin' "man this is it"
I wish we could take it all back

Let's take it back to the start
When we were just kids in love
Do you remember back in the start
Before we started growin' up

I wish we could go back, back, back to the start
When the whole world was us
I wish we could go back, back, back to the start
When the whole world was us
Let's take it back to the start
When we were just kids in love

Now you grow, yeah and you're all I know
What a long bumped road
But I'd walk it all again with you
Yeah said I'd walk it all again with you

Before the bullshit, before the long nights
Before we knew anything about the real life
About the real world and the struggle
Back to the days when we lived in a bubble
Everything was all good, we were killin' it
Holding hands like damn we legitimate
So naive, so innocent
I wish we could take it all back

Let's take it back to the start
When we were just kids in love
Do you remember back in the start
Before we started growin' up

I wish we could go back, back, back to the start

When the whole world was us
I wish we could go back, back, back to the start
When the whole world was us
Let's take it back to the start
When we were just kids in love

Do you ever wish we could rewind
Yeah dream about it sometimes
I miss when we were backed in
But maybe we could try to find it again
I remember how I felt on our first date
Remember why we felt in love in the first place
I believe in a love like this
And I know we can take it all back

Let's take it back to the start
When we were just kids in love
Do you remember back in the start
Before we started growin' up

I wish we could go back, back, back to the start
When the whole world was us
I wish we could go back, back, back to the start
When the whole world was us
Let's take it back to the start
When we were just kids in love
