

# Crystal Ball

Jake Miller

Out of nowhere, she came rocked me like a hurricane  
Novocaine fillin' up my brain  
Butane spark the flame  
We both know where this bout to go  
Purple du-rag, kamasutra  
Lookin' so bad, straight out Shibuya  
Girl take my hand, what's it to ya?  
We both know where this bout to go

Head over heels, divin' into the deep end  
Sexual healin', it's love on the weekend  
Drinkin' you in from the floor to the ceiling  
All these feelings, woah

Caught between reality and dreamin'  
Telepathic like a psychic reading  
Fuck our second guessin, let's just risk it all  
Stare into your eyes just like a crystal ball  
Caught between reality and dreamin'  
Telepathic like a psychic reading  
Fuck our second guessin, let's just risk it all  
Stare into your eyes just like a crystal ball

A wise man once said, don't you rush it  
True love takes time for adjustment  
In the meantime, let's unwind  
We both know where this bout to go

Head over heels, divin' into the deep end  
Sexual healin', it's love on the weekend  
Drinkin' you in from the floor to the ceiling  
All these feelings, woah

Caught between reality and dreamin'  
Telepathic like a psychic reading  
Fuck our second guessin, let's just risk it all  
Stare into your eyes just like a crystal ball  
Caught between reality and dreamin'  
Telepathic like a psychic reading  
Fuck our second guessin, let's just risk it all  
Stare into your eyes just like a crystal ball

(Caught between reality and dreamin')  
(Caught between reality and dreamin')  
(Stare into your eyes just like a crystal ball)
