

## OCEAN AWAY

Jake Miller

Your bag's packed, passport  
You're moving to Paris  
Can I drive you to the airport?  
I just want a few extra minutes  
I'm quiet, you're scared to lose me  
We're like a scene from a movie  
But when you go, just know

We can be an  
Ocean away, ocean away, ocean away  
Nothing's gonna  
Keep me away, keep me away, keep me away  
Even if we  
Go through the waves, go through the waves, go through the wave  
s  
Promise you that everything will be ok  
We've been through way more than an ocean away

Remember back when  
You went off to college  
We'd wake up your roommates  
'Cause I was always calling  
Four years, I told you we'd make it  
We're still here and nothing is changing  
So when you go, just know

We can be an  
Ocean away, ocean away, ocean away  
Nothing's gonna  
Keep me away, keep me away, keep me away  
Even if we  
Go through the waves, go through the waves, go through the wave  
s  
Promise you that everything will be ok  
We've been through way more than an ocean away

We can be an  
Ocean away, ocean away, ocean away  
Nothing's gonna  
Keep me away, keep me away, keep me away  
Even if we  
Go through the waves, go through the waves, go through the wave  
s  
Promise you that everything will be ok  
We've been through way more
