

# Overnight

Jake Miller

I know sometimes you wanna go and give up  
You know we only argue when I'm fucked up  
So maybe we should try and kiss and make up  
Or if you hate me, baby, maybe you should just leave  
But I can see you saying shit you don't mean  
You'll feeling better in the morning

They say change takes time  
But baby, we can fix it overnight  
If you let me try  
Then maybe we can fix it overnight, overnight  
Oh, overnight

Running out of patience, we should slow down  
My tongue is tied, I don't know what to say now  
But we don't have to talk to work it all out  
Cause once you question, burn, you burn it all down  
You know it's getting late, we may as well now  
Make it better by the time the sun's out

They say change takes time  
But baby, we can fix it overnight  
If you let me try  
Then maybe we can fix it overnight, overnight  
Oh, overnight  
Baby, we can fix it overnight

Oh no, we don't have to  
Give up, give up so soon  
Baby, we don't have to sleep on it  
Right now, let me show you  
What I, what I can do  
Baby, we don't have to sleep on it, baby

They say change takes time  
But baby, we can fix it overnight  
If you let me try  
Then maybe we can fix it overnight, overnight  
Oh, overnight  
Baby, we can fix it overnight
