

Permanent

Jake Miller

Is this permanent
Permanent

I think your friends know more
About us than I do
I don't know what to say
When my mom asks about you

I guess I'm confused
Tell me the truth
Do we have a chance
Or are we through
I think your friends know more
About us than I do
I just need to know...

Is permanent what we meant
When we said that we needed space
How could you forget the time we spent
How do you know when it's time
To throw it all away

Is this permanent, permanent, permanent
Is this permanent, permanent
Is this permanent, permanent, permanent
Is this permanent, permanent

I still drive by your house
On my way home
I keep my eyes on the road
I don't wanna know
If there's somebody new
There with you
Making you laugh
Just like I used to
I still drive by your house
On my way home

Is permanent what we meant
When we said that we needed space
How could you forget the time we spent
How do you know when it's time
To throw it all away

Is this permanent, permanent, permanent
Is this permanent, permanent
Is this permanent, permanent, permanent
Is this permanent, permanent

Yeah, tell me
Is it permanent, permanent
Is this a forever thing
Thought you were the one baby
I was thinking wedding ring
But you won't even pick the damn phone up
I just think that we deserve closure
You're with your new man

I'm with my new girl
Drinking every night
Trying not to think of you girl
Can't tell if we helpin' it or hurtin' it
I just need to know if this is permanent

Is permanent what we meant
When we said that we needed space
How could you forget the time we spent
How do you know when it's time
To throw it all away

Is this permanent, permanent, permanent
Is it permanent babe, I just need to know babe
Is this permanent, permanent, permanent
Is this permanent, permanent
