Saved Me

Jake Miller

I was down
I was down
Now I'm all the way up
Almost drowned
Pulled me out
Right before I gave up
You saved me
You saved me

I was dropped
From the top
Hit so hard I went numb
When we met
I was lost
Didn't know who I was
You saved me
You saved me

These last couple years fuckin' sucked
I drank a lot, smoked a lot
Long nights I didn't sleep a lot
Told my friends I'm too busy for love
I was looking though
Couldn't find it though
I was losing hope

But one night you fell down from the stars
Shining a light into the dark
And you picked up all my broken parts
You know who you are
Who you are

I was down
I was down
Now I'm all the way up
Almost drowned
Pulled me out
Right before I gave up
You saved me
You saved me

I was dropped
From the top
Hit so hard I went numb
When we met
I was lost
Didn't know who I was
You saved me
You saved me

These last couple months, change of plans
I'm drinkin' less, smokin' less
Better sleep, better sex
You make me wanna be a better man
A thousand nights I prayed
That you would find your way

Then one night you fell down from the stars
Shining a light into the dark
And you picked up all my broken parts
You know who you are
Who you are

I was down
I was down
Now I'm all the way up
Almost drowned
Pulled me out
Right before I gave up
You saved me
You saved me

I was dropped
From the top
Hit so hard I went numb
When we met
I was lost
Didn't know who I was
You saved me
You saved me

Only you, make me smile on my darkest days
Only you, you know how to take the pain away
Only you, only you

I was down
I was down
Now I'm all the way up
Almost drowned
Pulled me out
Right before I gave up
You saved me
You saved me

I was dropped
From the top
Hit so hard I went numb
When we met
I was lost
Didn't know who I was
You saved me
You saved me
