Me and you, that's a fire  
I could lay here my whole life  
Love your style, just my type  
So much more than meets the eye

So caught up in the moment, oh yeah  
I wanna ride this wave all night  
I get the liquor pouring, oh yeah  
'Cause I'm not tryna waste no time  
So caught up in the moment, oh yeah  
I wanna dive inside your mind  
This energy, it doesn't lie

I love your vibrations  
I love your vibrations  
I wanna make your body shake  
Oh God don't make me wait  
'Cause I love your vibrations  
So come vibrate on me

(Through my body)  
(Through my bo-, bo-)  
(Through my body)  
(Through my bo-)  
So come vibrate on me  
(Through my body)  
(Through my bo-, bo-)  
(Through my body)  
(Through my bo-)

Don't look down, we're too high  
I'ma make you scream all night  
Just lay back, close your eyes  
Get it just the way you like

So caught up in the moment, oh yeah  
I wanna ride this wave all night  
I get the liquor pouring, oh yeah  
'Cause I'm not tryna waste no time  
So caught up in the moment, oh yeah  
I wanna dive inside your mind  
This energy, it doesn't lie

I love your vibrations  
I love your vibrations  
I wanna make your body shake  
Oh God don't make me wait  
'Cause I love your vibrations  
So come vibrate on me

(Through my body)  
(Through my bo-, bo-)

(Through my body)  
(Through my bo-)  
So come vibrate on me  
(Through my body)  
(Through my bo-, bo-)  
(Through my body)  
(Through my bo-)

This energy, it doesn't lie, no, no  
This energy, you can't deny, no, oh

I love your vibrations  
I love your vibrations  
I wanna make your body shake  
Oh God don't make me wait  
'Cause I love your vibrations  
So come vibrate on me

(Through my body)  
(Through my bo-, bo-)  
(Through my body)  
(Through my bo-)  
Come vibrate on me  
(Through my body)  
(Through my bo-, bo-)  
I love your vibrations  
So come vibrate on me
