

# Catch a Cold One

Jake Owen

Colorado cans on a Tennessee water  
Nothin' really nibblin' on the end of that bobber  
Me and my old man's old man just talkin' it up  
He said "Just 'cause you drop a line  
Don't mean the fish will bite"

So if it don't rain, talk to the good Lord  
If it don't crank, it ain't from Detroit  
You want a good song play an old one  
The only good boat is a sold one  
Work ain't always done when the day's done  
You can't always catch a break or a big one  
But you can always catch a cold one

Yeah I didn't get it then but I sure do now  
It's kinda up to you how it all turns out  
Life ain't always pinewood docks and blue skies  
Every time I reach down in the ice  
I can still hear him from the other side

Sayin' if it don't rain, talk to the good Lord  
If it don't crank, it ain't from Detroit  
You want a good song play an old one  
The only good boat is a sold one  
Work ain't always done when the day's done  
You can't always catch a break or a big one  
But you can always catch a cold one  
Yeah you can always catch a cold one

Life ain't always easy  
Man ain't that the truth  
You can't win 'em all  
But even when you lose  
Yeah we can still drink a few

If it don't rain, talk to the good Lord  
If it don't crank, it ain't from Detroit  
You want a good song play an old one  
The only good boat is a sold one

Yeah if it don't rain, talk to the good Lord  
If it don't crank, it ain't from Detroit  
You want a good song play an old one  
The only good boat is a sold one  
Work ain't always done when the day's done  
You can't always catch a break or a big one  
But you can always catch a cold one  
Yeah work ain't always done when the day's done  
You can't always catch a break or a big one  
But you can always catch a cold one
