

From Another Time

James Gang

Hey girl, you think if you just do a few tricks,
You'll get it straight again.
Hey girl, you may as well blow the rent,
Wanna have to lose yourself again.

Bittersweet and starlit dreams
Come from blood red wine
Save yours, it seems
Come from another time
Come from another time

Hey girl, I thought we'd go and sit quietly
Have a drink and think about old times

Hey girl, you're trying to change a thing that's done
Tryin' for a magic that won't come

Bittersweet and starlit dreams
Come from blood red wine
Save yours, it seems
Come from another time
Come from another time

Bittersweet and starlit dreams
Come from blood red wine
Save yours, it seems
Come from another time
Come from another time
