

# Someone Like You

James Ingram

I can hear you whisper, baby  
You say you're not really satisfied  
So I need to know your situation  
Is there a chance you could be mine

I need someone like you  
Someone to love me  
I need someone like you  
To love me baby  
I need someone like you

Well I appreciate sophistication  
And honey that's a word you do define  
I can hardly wait to hold you  
I can hardly wait to make you mine  
Ooooh I really wanna know you better  
Do you wanna get together  
Oooh Oohhh

I need someone like you  
Someone to love me  
I need someone like you  
To love me baby  
I need someone like you

Tell me now  
Is it my imagination  
Do you want my lovin'  
Tel me now  
Is it the power of flirtation  
Do you want my love  
Do you need someone

Ooooh Yeah  
To love me baby  
Darling I need  
I need someone like you  
I know what I need  
Someone like you baby  
Oohhh  
Darling I need I need I need  
To love me baby  
Baby Baby Baby  
Feel you lovin arms around me  
I need someone like you  
To love me baby  
Darlin I need  
Feel you lovin touch babe  
Someone to love me baby

I need someone like you  
Someone to love me  
I need someone like you  
To love me baby  
I need someone like you
