

Confusion

James

Well I made me a list of lovers from
A to infinity
But I couldn't remember the names of half of those
I remember bits of bodies and what they did to me
And whether or not I got them up and made them hum

Oh confusion
Confusion reigns over me
Oh confusion
It breeds, it breeds, it breeds all over me

Well we used your mouths in ways
I only dreamt of
You walked the line between acrobat and nun
You took me to the edge in public places
And took me home to share me with your Mum

Oh confusion
Confusion reigns over me
Oh confusion
It breeds, it breeds, it breeds all over me

And I lost my mind in a hotel room in Texas
All I recall is a puffed-up face and t-shirt
And when you came
You just turned into some creature
You're strong I'm so strong

Oh confusion
Confusion reigns over me
Oh confusion
Confusion reigns over me
Oh confusion
It breeds, it breeds, it breeds all over me
