

# One of the Three

James

Three

You were one, one of the three  
One in three must find some peace  
You were one, one of the three  
I need proof before belief  
Oh, well, you just knew they'd come for you  
So it was suicide, suicide  
Oh, well, now you got just what you want  
I hope you're satisfied

One of the three, one of the three, one of the three, one of the three

You were one, one of the three  
One in three must find some peace  
You were one, one of the three  
I need proof before belief  
Oh, well, I guess you're not to blame for what they've  
Done in your name, in your name  
Oh, well, it's a shame you got so famous for a sacrifice

One of the three, one of the three, one of the three, one of the three

One of the three, one of the three, one of the three, one of the three  
You were one, one of the three  
One in three must find some peace  
You were one, one of the three  
I need proof before belief

You sent forth your lamb to the slaughter  
You sent forth your lamb to the slaughter  
You sent forth your lamb to the slaughter  
You sent forth your lamb to the slaughter
