

## Seven

James

Blow me away  
Was that love you declared  
Only a word  
Love can mean anything  
Understand the world we're living in

Oceans apart  
What's that view from your wave  
Beautiful craft  
Weather and change  
Understand the world we're living in  
Love can mean anything

God made love to me  
Soothed away my gravity  
Made me a pair of angel's wings  
Clear vision and some magic things

God is love to me  
Thank you for those things  
Understand the world we're living in  
Love can mean anything

Darling  
I'm open  
Unguarded  
Unbroken

Now we've done our time  
We can drift away  
Like the heavy cloud  
With the weight of rain

Understand the world we're living in  
Love can mean anything

Understand the world we're living in  
Love can change anything
