

Tomorrow

James

C G F F

C G

I see you falling,

F F

how long to go, before you hit the ground.

C G

You keep on screaming,

F F

don't you see me here, am I a ghost to you.

Refren:

C

Now your grips too strong,

G

you can't catch love with a net or gun.

F

Gotta keep faith that your path will change,

F

gotta keep faith that your luck will change

C G

tomorrow,

F F

tomorrow.

C G

Why are you 'phoning?

F F

What am I to do, when you're miles away?

C G

You're always calling,

F F

when the darkness looms when we're both scared.

Now your grips too strong,

you can't catch love with a net or gun.

Gotta keep faith that your path will change,

gotta keep faith that your luck will change...

Now your grips too strong,

you can't catch love with a net or gun.

Gotta keep faith that your path will change

gotta keep faith that your luck will change

C

tomorrow,

G

I'm just out of your range,

F

tomorrow.

F

all your sufferings in vain,

C G

tomorrow.

Now your grips too strong,

you can't catch love with a net or gun.

Gotta keep faith that your path will change,

gotta keep faith that your luck will change

C

tomorrow,

G

I fly out of your range,

F

tomorrow,

F

all your sufferings seems vain, change

C

tomorrow,

G

some forgiveness now,

F

tomorrow,

F

allows no sacred cow.
