## **Upside**

**James** 

Send seasonal greetings from nowhere I'm working and playing away Remember the moment of leaving Yesterday, yesterday

Roll through these towns, over seas, over mountains Lucky to work when work is scarce Father must feed, must provide, he must fountain Left my heart within your care

Upside, love you, downside, miss you I'm here, you are there
Upside, working, downside, hurting
Hear my echo, dancing bear

Connected to you by a mobile
What I can't do, I can say
Away from you, I'm feeling empty
I am raining, I am gray

Upside, love you, downside, miss you I'm here, you are there
Upside, working, downside, hurting
Hear my echo, dancing bear

My work's about words and sounds you can taste Violins and trumpets, chocolate cakes Here are some words, words you can taste Here are some words, kissing your face

Upside, love you, downside, miss you I'm here, you are there
Upside, working, downside, hurting
Hear my echo, dancing bear
