

# Waking

James

Suffer the children who question every value  
I spoke with questions, a program to machine  
We have a blueprint, the suit don't fit, we've split the seams  
Folks are contagious, with thinking up some way

Lies, lies that have choked us  
Lies, lies that almost broke us

Brothers, sisters, we've been fooled  
They don't want us to fulfill  
Just enough to pay your bills  
Entertainment, don't [?]

We are schooled, we are schooled, to follow the rules  
We are schooled, we are schooled, to follow the rules

Words define us, see the world the way we believe  
This mirror drives us, we can't get out the way

Lies, lies that have choked us  
Lies, lies that almost broke us

Brothers, sisters, we've been fools  
They don't want us to fulfill  
Just enough to pay your bills  
Entertainment, don't [?]

We are schooled, we are schooled, to follow the rules  
We are schooled, we are schooled, to follow the rules
