

We're Going To Miss You

James

This is not
This is not
A song
This is a shield
This is a charm
With your name on

By this beat
By this verse
I'm protected
From your heat
And your curse
Is reflected

If anybody hurts me
If anybody hurts me

Here's a mirror with your name on
Saying we're gonna miss you when you're gone
Here's a mirror with your name on
Saying we're gonna miss you when you're gone

Your green eyes
Poison pen
Serpent's tongue
Will return
To the source
That they came from

Revenge is the wine
Forgiveness is fine
Forgiveness divine
Revenge is more human

Here's a mirror with your name on
Saying we're gonna miss you when you're gone
Here's a mirror with your name on
Saying we're gonna miss you when you're gone

No words, all's been said and done
No more words, all's been said and done

Here's a mirror with your name on
Saying we're gonna miss you when you're gone
Here's a mirror with your name on
Saying we're gonna miss you when you're gone

Here's a mirror with your name on
Saying we're gonna miss you when you're gone
