

Last Night Stars

Jamie Lawson

Last night's stars have faded
There's only a bright blue sky
To cover you now
Last night's stars have faded
There's only a bright blue sky
To cover you now

If I knew the words
I could learn how to live without you
And what am I supposed to do
What am I supposed to do

Last night's stars have faded
There's only a bright blue sky
To cover you now
Last night's stars have faded
There's only a bright blue sky
To cover you now

And if I knew the songs
That told how to live without you
And what am I supposed to do
What am I supposed to do
Living here without you

It's complicated
Flames rise high
It's complicated
Burns and desire
Is there somewhere to save this
All the feelings on fire
All the feelings on fire
All the feelings on fire

Last night's stars have faded
Where is the bright blue sky
That I promised you?
Last night's stars have faded
There's the bright blue sky
Yeah, I promised me too

Oh, if I knew the words
Maybe they'd pull me through
Maybe they'd pull me through
Maybe they'd pull me through
