

# Together We're One

Jan Howard

What good is my life if I don't have you cause all of my dreams  
are built around you  
I'd be like Miami without any sun  
Without you I'm nothing without you I'm nothing together we're  
one  
The roar of Niagara when you are near turns into a drip when yo  
u disappear  
Imagine a party without any fun  
Without you I'm nothing without you I'm nothing together we're  
one  
When I'm happy oh it tickles me too  
When I'm crying you know it hurts me through and through  
It takes two hands to make one hold I belong to you baby body a  
nd soul  
If you ever leave me and you don't come back  
I'd be like a train without a railroad track  
Just like a river with a no place to run  
Without you I'm nothing without you I'm nothing together we're  
one  
When I'm happy oh it tickles me too...
