

All We Need

Janet Devlin

Golden Halo
The day says hello
No need to frown
It's time to move on
Chasing rainbows
Lighter than the wind blows
No need to come down
Because we don't belong in shadows
So it's time to let it go
Nothing beats new starts
Follow your heart
Up above the clouds
Don't want to come down
'Cause now I know
That I've found in this old tired town
Somewhere we can be
And it won't be long 'til darkness comes
But 'til then the sun is all we need
Nothing but life to seize
Wish we could freeze
In this moment in time
Spinning around
Starburst kaleidoscope of words
You mystify me
Can't you stay?
Oh can we stay?
'Cause I've found in this old tired town
Somewhere we can be
And it won't be long 'til darkness comes
But 'til then the sun is all we need
Don't let the sunset fall on me
'Cause I've found in this old tired town
Somewhere we can be
And it won't be long 'til darkness comes
But 'til then the sun is all
'Cause I've found in this old dirty town
Somewhere we can be
And it won't be long 'til darkness comes
But 'til then the sun is all
We'll see
The sun is all we need
