Don't Worry 'Bout Me Baby

Janie Fricke

There's no way to know, how this is all gonna end
Don't be afraid that you might make me cry
We fell in love once, we could fall again

Don't Worry 'Bout Me Baby,
For telling me lies
It makes no difference how it all works out
How can I make you understand
This night with you is all I'm thinking about.
If I can't have it all, I'll take what I can

CHORUS:
Don't Worry 'Bout Me Baby, I'll be alright
Don't Worry 'Bout Me Baby, Just love me tonight.

This can't be wrong, I know that it's right
So as long as it's good, keep holding me tight-ight

chorus
chorus to fade
