

# Rock This Girl

Jann Arden

Hey lover, friend of mine  
When you kiss me I feel fine  
When you love me good like you do  
Oh lover, feels so free  
When you're here on top of me  
When you got my head in your hands

You rock this girl, girl

Hey lover, shut your mouth  
They're gonna hear you scream and shout  
Don't forget your momma's upstairs  
Hey lover, close your eyes  
Baby, let me rock-a-bye  
Gonna take you where she won't dare

You rock this girl  
You rock this girl

Oh lover, burn me up  
Don't you ever never stop  
And show me what it's like to get high  
Hey lover, hold me down  
Push my body round and round  
Give me everything I desire

You rock this girl  
You rock this girl

You rock this girl  
You rock this girl

Rock this girl  
Rock this girl
