Uh, guess what (what)
I'm fucked up just like you
I failed through life no slight clue
Stress make a nigga feel stifled
I came out the mud no idle
I feel lifeless no vitals
Why do I feel suicidal
I done turn into my own rival
Man up, suck it up like lipo
I'm insecure just like you
I drink too much just like you
I pop a few pills just like you
My head ain't wrapped tight Badu, Uuh Erykah
No place for the weak in America
Black man, the police gonna bury ya
I feel scared just like you
I'mma get broke just like you
I lost hope just like you
I cry sometimes just like you
Head to the clouds that's sky blue
But sometimes thought wanna die too
Waitin on God to advise you
I never had faith in the Bible
Niggas turn on ya vitiligo, Uhh Michael
Paranoid moonwalk with the rifle, Woo I will
Fuck a good thing up just like you
There's some blood nope I rule
My daughter and son that's my roots
Love unconditional I grew
That's something that your mama didn't recognize
I broke the home up she didn't let it slide
Pack up move out nigga gotta ride
To the left to the left nigga bye bye
