

No X's & O's

Jarren Benton

There's no X and Os
Nah, you ripped out my heart
And tore it apart
You left me all scarred
There's no X and Os
Uh, I thought you would ride
You ain't by my side
That's f*ck you for life
There's no X and Os
Nah, you ripped out my heart
And tore it apart
You had no regards
There's no X and Os
Uh, I thought that you ride
But you ain't by my side
Now it's f*ck you for life
Bitch no X and Os

Ya, put your hand on my chest
And you ripped out my heart
Spit on it kicked it and tore it apart
You left me for dead
But I rose out the dark
Now it's f*ck you I hope someone blow up your car
I hope that you drown in a bucket of piss
Hope you choke on that dick ??
You dirty you smell like a bucket of fish
I'm the only one there when you cut up your wrists
The only one there when you scream out and welp
Ain't no one else around when your reach out for help
I got beat up by life
You don't see all these welts
You can't fathom my pain
You don't see how I felt
You a cold-hearted cunt
I might smoke all these blunts
Just to numb all this pain
But you know that's a front
I might act like I'm tough
But I'm really f*cked up
Bitch what happened to us
See what's lackin was love
Oh what a surprise (what a surprise)
I thought you would ride (thought you would ride)
Won't swallow my pride
There's pain in my eyes
It's f*ck you for life (for life)
I let you get close (I let you get close)
You left me exposed (left me exposed)
I feel like I'm bout to explode
I just want you to know bitch
There's no X and Os

Nah, you ripped out my heart
And tore it apart
You left me all scarred
There's no X and Os

Uh, I thought you would ride

You ain't by my side

There's no X and Os

And tore it apart

You bitches should know (bitches should know)
I drown out my pain (I drown out my pain)
I just upped my dose (I just upped my dose)
I let you get close (I let you get close)
You stepped on my toes (stepped on my toes)
I been down that road
I jump back on these hoes
Bitch okay I reload (Ha)
Nail in the coffin
That's hell if they crossin
The yellow tape yell I take caution
I weighed out my options
These niggas can't stop it
My heart is as dark as a pit with no bottom, ya
Love will turn angels to demons
And demons to angels
I duck now when cupid spray Draco (Brr)
I burned up my halo
Was hurt by betrayal
We hit like a herd of tornadoes, uh (Uh)

Oh what a surprise (what a surprise)
I thought you would ride (thought you would ride)
Won't swallow my pride
There's pain in my eyes
It's f*ck you for life (for life)
