## **Drink One for Me**

You don't know how bad, I wish I was home Can't wait to get back, But while I'm gone Y'all carry on

Drink one for me, for all the old times We tore up that town, raised hell alright Tell the boys, thanks for having my back Some of the best memories I've ever had So go on and get crazy And drink one for me

I can't count the miles, It just feels so far And it could be a while 'Til I'm where you are So keep me in your heart

Drink one for me, for all the old times We tore up that town, raised hell alright Tell the boys, thanks for having my back Some of the best memories I've ever had So go on and get crazy And drink one

For the ones you can't be with The ones we'll always miss And times like this And times like this

Drink one for me, for all the old times We tore up that town, raised hell alright Tell the boys, thanks for having my back Some of the best memories I've ever had So go on and get crazy And drink one for me Drink one for me
